Fiber Polymers, Fibers,
Texturing and Spunbonds

Textile
Technology

- ITMA Preview** New machinery for fiber production, texturing and nonwovens
- Raw Materials** Current fiber raw material markets
- Fibers** 50th anniversary Dornbirn Man-Made Fibers Congress
Global market for high-tenacity PA and PET filament yarns 2008-2010
(V. Siejak, H.-B. Luchtefeld, Polyamide High Performance GmbH, Wuppertal/Germany)
Polyester, Polyamide & Intermediates Conference, Frankfurt/Germany: conference report
New stain-resistant PET fabric for water absorption and oil repellency
(Teijin Fibers Ltd., Tokyo/Japan)
75th anniversary Kelheim Fibres GmbH, Kelheim/Germany
10th anniversary Dralon GmbH, Dormagen/Germany
Fiber specialties (Farè SpA, Fagnano Olona/Italy)
- Fiber Production** Continuous masterbatch process for the cellulosic fiber industry
(A. Diener, G. Schlager, List AG, Arisdorf/Switzerland)
Property and spinnability of polysulfonamide fiber
(W.-L. Xue, Donghua University, Shanghai; M.-Y. Wei, Shanghai; Entry-Exit Inspection and Quarantine Bureau, Shanghai/PR China)
Surface functionalization of polyester fabric with atmospheric pressure plasma enhanced chemical vapor deposition (K.H. Kale, S.S. Palaskar, The Bombay Textile Research Association, Mumbai/India)
Kinetics and thermodynamic of dyeing elastane/spandex fiber with direct dyes
(B.H. Patel, D.P. Chattopadhyay, M.S. Univ. of Baroda, Vadodara/India)
- Texturing** Global Cost structures of textured yarns (ITMF, Zurich/Switzerland)
New ceramic friction discs
(T. Günther, Rauschert GmbH, Pressig/Germany)
- Nonwovens** Global market trends
Development of bicofibers for nonwovens in the last decade in China
(J. Xuan, Yancheng Textile College, Yancheng/PR China)
Hydroentanglement spunlace process – a technological review
(R. Senthil Kumar, Kumaraguru College of Technology, Coimbatore/India)
