

**Leader**

- 133 After the fair is before the fair**  
A. Wissenberg

**Industry News**

- 135 Trevira: PET fiber sales € 120 million**  
**136 Cotton demand – weighing the consumer factor** A.A. Terhaar  
**137 Advansa: new innovations with ThermoCool PET fibers**  
**138 Edana: lower nonwovens production in Europe**  
**139 Expansion of Techtextil 2011**  
**140 ITMA Asia + CITME 2010: more foreign visitors from Asia**  
**141 Clariant: production transfer to Asia**  
**142–146 Management**  
**145 Eschler: plasma technology for functional textiles**  
**147 Huntsman: new industrial inks**  
**149 Rieter: order intake + 92 %**  
**150 World market trends for draw-texturing machines (ITMF)**

**Spinning**

- 151 Decline in short-staple spinning investments (ITMF)**  
**152 Compact and conventional ring spun blend yarns and carbonizing effect** C.D. Kane et al.  
**155 New aprons for HT ring spinning machines**  
**155 New manual spindle lubricating apparatus for complete spindles**  
**156 Air-jet spinning – yarn structure and quality** U. Heitmann et al.  
**158 Optimal use of resources with compact ring spinning** B. Rusch  
**160 New fiber length and strength tester for cotton spinning mills** G. Kugler et al.  
**163 Fiber testing in spinning mills**

**Weaving**

- 164 Global weaving machine investments (ITMF)**  
**165 Energy saving in air-jet weaving using computational fluid dynamics** P. Jungbecker et al.  
**167 Cordless catch at air-jet weaving machine**  
**168 Leno weave reinforced composites** R. Kleicke et al.  
**169 New optimum crosslapper system**

**Knitting**

- 170 Shipments of circular and flat knitting machines (ITMF)**  
**172 Economic machining of Vortex yarns to high-quality warp knit fabric** J. Martin et al.  
**174 Relaxation shrinkage of weft knitted fabrics** P. Subbiah et al.

**Textile Finishing**

- 176 45<sup>th</sup> IFKT Congress of Knitting Federation: Research and Development** M.O. Weber  
**177 Environmentally friendly possibility for dyeing and finishing of PA/elastane warp knitted fabrics** W. Zhang, N. Wickert  
**180 Comparison between yarn pressure drying and radio frequency drying** L. Averbeck  
**181 New dyeing machine with very low dye liquor levels**  
**182 Plasma processing of textiles – perspectives** S. Guimond et al.  
**183 Next color quality control software**

**Textile Industry**

- 184 Structured copolymers – high-performance additives to modify surface properties** J. Omeis  
**167+187 Calendar**  
**188 Company Index / Advertisers Index / Imprint**
